

At GOJO, our sole focus is hand hygiene and healthy skin.

As a result, we lead the industry in developing skin care solutions for a variety of markets, including healthcare, manufacturing, automotive, foodservice, education and government. Each market provides us with a more in-depth understanding of the science of skin care, and we apply that knowledge to every market we serve.

We combine progressive product formulations, carefully engineered dispensing technology and scientifically based education and training programs that encourage healthy skin care behavior. The resulting skin care programs are the most extensive and comprehensive in the industry.
