

## Gelva Industries

Gelva Called Flexovit USA, Inc. is a manufacturer and marketer of high productivity abrasive products for the industrial, welding, and construction trades. In addition to manufacturing, Flexovit USA offers a complete range of technical and product support services for users of abrasives, and for distributors of Flexovit products.

There are a wide range of Flexovit products available including: Bonded Abrasives, Coated Abrasives, Non Woven Abrasives, Carbide Burs, Wire Brushes and Diamond Abrasives.

Expanding its focus on the high performance adhesives market in Europe, the Resin and Additives business unit of Solutia Inc. recently announced the appointment of a new product manager for the Gelva adhesives line, to be based in Louvain-la-Neuve, Belgium.

Solutia manufactures and markets a broad range of high-performance pressure sensitive adhesives, sold worldwide under the Gelva trademark. The product line includes dozens of highly specialized Gelva adhesives (both emulsion and solvent-based), used for demanding applications in industries such as graphics and printing, automotive, medical, and solar films.
